PART I. INTRODUCE

1. Student overview

Hi, my name is Cuc. I was born and raised in Quang Ngai city. Although the climate is harsh, the people here are extremely hard-working. This has partly influenced my personality. After graduating from high school, in 2017 I moved to Ho Chi Minh City to continue my studies.

I am very interested in keeping up keeping up to date with fashion, design, and apparel trends and that's why I chose the garment industry. At this university environment, I have been cultivating the professional knowledge and skills necessary to be qualified to apply for a dream job. Besides studying, I also improve my life skills by participating in school volunteer activities and part-time work.

I feel myself as a person with clear goals in life and work. I am not afraid to absorb, change to upgrade myself and always be creative in work and study.

2. Oustanding achievement

- *Completed on schedule learning.*
- *Good grades in all semesters.*
